From the explanatory note of the Head Master Mr V Subramanyam Esq it will be seen that each teacher has got 24 or 25 periods of teaching work i.e. 20 to 21 hours' work every week. The teachers have also got the work of ~~correcting~~ marking a large number of exercise books and answer papers. It is also reported that the School Final Set Exam Scheme has considerably increased the work of the teachers and so they are obliged to hold special classes ^{even} in Vacations.

Secretary to the Government of His Highness the
Maharaja of Mysore Departments of Education &c

Sir

I have the honour to invite the attention of Government to
this office letter No 6530/482 dated 26th January 1911 in the matter
of confirming the establishment of the Government High School Bangalore
which came into existence more than 4 years ago. In connection
with this school alone there are about 30 teachers holding tentative
appointments during the past four years and more causing much con-
fusion and difficulty when transfers or appointments have to be made.
Moreover the sense of insecurity which the holders of these tentative
appointments naturally feel is not conducive to good work. Under
these circumstances I recommend that Government may be pleased to
sanction the confirmation of the whole establishment as it exists now
in the Bangalore High School with the exception of the one additional
teacher on Rs 50 sanctioned for one year in Government Order No 58-9
Edn 460-11-4 dated 15th July 1912, the necessity or otherwise for who
will be considered when the High School reopens for work after the
summer vacation and a recommendation made to Government for his con-
tinuance if necessary.

I have the honour to be
Sir
Your most obedient servant

L. Shama Rao.

I have the honour to inform you that as called for in your letter No 9584/Edn 362-12-2 dated 5th June 1913, I sent to the Comptroller a list of the present establishment of the Government High School, Bangalore with my docket No 14529/362 dated 6th June 1913 for verification and submission to Government. As already represented in my letter No 12747/708 dated 6th May 1913, much confusion and trouble have been caused on account of the tentative nature of the High School appointments. I request the favour of very early orders of Government in the matter.

Points requiring explanation are --

- 1 The attempt to meet the requirements of some of the latest methods of teaching English,
- 2 The arrangements for satisfying the special conditions of work here in so far as they differ from those in smaller High Schools,
- 3 The provisions to suit the change of work necessitated by the introduction of the Secondary School Leaving Certificate Scheme

Under the first head may be noted as a special feature of this Time Table the assignment of periods for (1) 'Reading' in the Library and (2) 'Discussion' of topics studied in Text-Books

Turning to the second point it has to be pointed out that the Assistant masters actually do teaching work for 24 or 25 periods i.e. 20 to 21 hours a week though the Time Table shows only 21 or 22 periods for each master. In a big institution with a large number of teachers some one or more members of the staff absent themselves on leave almost every day. And the absentee masters' work has to be done by the rest. This adds 2 or 3 periods of work a week to the number assigned in the Time Table. In smaller institutions on the other hand with fewer hands the chances of taking leave being smaller the necessity for doing extra work is comparatively less.

Again, in schools with classes of 40 or more pupils the teacher has not only to talk louder which exhausts him the sooner but also to correct and value a larger number of exercise books and answer papers. Last year the actual number corrected and valued by each master was between 450 and 600 a month. And

12
this circumstance has been made worse by the S S L C Scheme which demands that every exercise should be gone carefully through and valued. So much apart from the minor exercises examined at other times. It is for these reasons that only 21 or 22 periods of work is assigned in the Time Table. It is not merely the number of periods but also the size of the classes that has to be taken into account.

Under the third head has to be considered the amount of additional labour that the S S L C Scheme has entailed. The correcting, valuing and registering at present has multiplied at least twice the work that was being done when the High School prepared pupils for the Matriculation examination. And it is needless to point out how great the strain is in the case particularly of schools with classes of 40 or more pupils. Further, as the S S L C standard is in some respects higher than the Matriculation, the teachers are obliged to hold special classes during the vacations and other holidays. They are thus obliged, not only to forego a great part of the leisure they were hitherto enjoying but also to sacrifice even a portion of the holidays.

As for the Headmaster, to what proportions his work has increased of late may be inferred from the circumstance that the Madras Educational Department have thought it necessary to lay down that no regular teaching work need be done by him. The Bombay and the Central Provinces Governments have also followed it, requiring of him not more than an hour's teaching a day.

In fact, the work of the Headmaster in this High School has grown latterly so much that a considerable portion of what had to be finished last year has yet to be done in spite of all his exertions. Further, the fact that the large mission schools have had to employ two - a Principal and a Headmaster - shows that the administrative work in
